KYZONE DRINKS
BARWARE & DRINK ACCESSORIES

PLASTIC CUPS

KyzoneDrinks®

Our Barware items are manufactured for different uses. To decide which of our products will be more suitable, consider the material, size, design and purpose.

PLASTIC

If you're looking for a versatile and resilient choice, plastic could be the answer. Quality plastic, resistant and odorless, can provide excellent transparency and protection against leaks and spills.

Polystyrene - A tough, rigid material, polystyrene can be either translucent or colored. Polystyrene containers can handle a wide choice of temperature ranges.

REUSABLE CUPS

Reusable, transparent cups, made of PS, a shiny material that imitates glass. They are suitable for events, catering, tastings, bars, clubs, restaurants, etc.

The best alternative to traditional glass cups.

GLASS ALTERNATIVE: These cups are made of high quality polystyrene (PS) plastic, very strong and resistant, made to last. Impact resistant, withstand regular use. Can be easily cleaned and stacked for easy storage. It is a quality alternative to glass cups.

ECO-FRIENDLY: Help the environment by stopping buying reusable plastic cups for barbecues, camping or picnics. With our range of cups you will save money as you can reuse them continuously.

USES: They are perfect for use indoors or outdoors. They are great for picnics, barbecues, summer parties, birthdays or everyday life. Perfect for home and professional use.

NON TOXIC: Made in Portugal with the highest food quality polystyrene (PS) to comply with all European directives and food standards. Respect the aroma and flavor of the drink.

ECONOMIC: Their characteristics translate into greater durability and resistance, which makes them economical.
